

Team Leader, R&D

Adelaide, South Australia

Biosensis Pty Ltd is a privately held biotechnology company located in Adelaide, SA together with the fully owned subsidiary, Gropep Bioreagents Pty Ltd. Our employees provide the highest quality life science tools for researchers in academia and industry. We specialise in ELISA Biomarker kits, staining reagents, antibodies and proteins for neurodegenerative disease research and diagnostics.

We are seeking to expand our team with a **Senior Scientist** leading our R&D team. Reporting directly to the CEO and working closely with the commercial team to explore new product options, you will lead the development of new products and technologies. Several R&D collaborative projects are also active with both university researchers and biotechnology companies building new Intellectual Property and novel reagents.

Ideally, the successful candidate will have a track record in both industry and academia including experience with grant funding. This full-time position therefore requires a dedicated senior scientist with a minimum of 10 years post-doctoral experience in a research environment in both academia and industry utilising antibody technologies. The position is available from 1st January, 2025. Further details can be found on our website [here](#).

An attractive salary package is offered between \$120,000 and \$160,000

To apply please send your detailed resume including details of at least 2 referees, and a cover letter [addressing the selection criteria](#) and stating your earliest availability via email to career@biosensis.com. Applications close on December 20th, 2024 5 PM (ACSDT).
